## WORKSHOP ON RESEARCH METHODOLOGY

### LIST OF PARTICIPANTS

Sr.no	Name of Participants
1	Ms.Jyoti Saini
2	Ms.Ouffee Maqbool
3	Ms.P.Sowjanya Samuel
4	Ms.Fozia Jan
5	Mr.Mairaj Bhat
6	Ms.J. Shakunthala Devi
7	Mr.M Sarat Babu
8	Ms.Priya Kumari
9	Mr.Ram Pratap Singh
10	Mr.Piyush Kumar
11	Mr.Ankit Kumar Wats
12	Mr.Strong P Marbaniang
13	Mr.Sudan P S J
14	Mr.Prem Shankar Mishra
15	Ms.Shreya Banerjee
16	Mr.Rajeev Kumar
17	Mr.Rojin Jeba
18	Mr.Prakash Babu Kodali
19	Mr. Monojit Garai
20	Mr.Harchand Ram
21	Ms.Yeshoda Bhargava
22	Mr.H K Das
23	Ms.Apoorva Nambiar
24	Mr.Ajit Jaiswal
25	Ms.Syedda Nausheen Fatima
26	Ms.Meenakshi Kalyani
27	Ms.Richa Pande
28	Ms.S Vithyanandhan
29	Ms.Maya Raveendran
30	Mr.Arul Selvan
31	Ms.Suhalaxmi Barik
32	Mr.Milind Bharambe

## BOOKS

**Population Concerns in India: Shifting Trends, Policies, and Programs**  
**Book by Krishnamurthy Srinivasan**  
**October 2017 - SAGE Publications Pvt. Ltd**

A major concern for any country's polity and development, the issue of population has always been particularly problematic in India given the diversity of religions and other social stratifications. Population Concerns in India: Shifting Trends, Policies, and Programs analyzes how the country has handled this concern in the seven decades post Independence.

The book discusses the various policies and programs that were considered most appropriate in different situations, and deliberates over how the population problem was perceived at different times. It also highlights the results achieved by India's Family Planning Programme and the implications of the successful experiences.

Written by an internationally renowned demographer, this book recommends policies that can effectively deal with the population concerns in this country.

IASP requests all the members of IASSH to submit your papers on line for publication in Demography India.

## Health and Medicine in the Indian Princely States 1850-1950

By **Waltraud Ernst, Biswamoy Pati, T V Sekher**

Routledge Publishers, London and New York, 2017

Exploring contentious issues currently debated in the existing scholarship on medicine in British India and other colonies, this book covers the 'indigenisation' of health services; the inter-relationship of colonial and indigenous paradigms of medical practice; the impact of specific political and administrative events and changes on health policies. The book also analyses British medical policies and the Indian reactions and initiatives they evoked in different Indian states. It offers new insights into the interplay of local adaptations with global exchanges between different national schools of thought in the formation of what is often vaguely, and all too simply, referred to as 'western' or 'colonial' medicine.

A pioneering study of health and medicine in the princely states of India, it provides a balanced appraisal of the role of medicine during the colonial era. It will be of interest to students and academics studying South Asian and imperial and commonwealth history; the history of medicine; the sociology of health and healing; and medical anthropology, social policy, public health, and international politics.

### Asian Population Studies

**Editor:**  
Prof Brenda Yeoh, *National University of Singapore*

**Associate Editor:**  
Dr Premchand Varma Dommaraju, *Nanyang Technological University, Singapore*

**Founding Editor:**  
Prof Gavin Jones, *formerly with Asia Research Institute, National University of Singapore*

The first international population journal to focus exclusively on population issues in Asia, *Asian Population Studies* (APS) publishes original research on matters related to population in this large, complex and rapidly changing region, and welcomes substantive empirical analyses, theoretical works, applied research, and contributions to methodology.

The topics that will be covered include all branches of population studies ranging from population dynamics such as the analysis of fertility, mortality and migration (from both technical and humanistic perspectives) to the consequences of population change from a variety of demographic perspectives.
