FELLOSHIPS/SCHOLARSHIPS

Opportunities at the Institute for Health Metrics and Evaluation and the Department of Global Health at the University of Washington.

Post-Graduate Fellowship Program

Advancing the Science of Health Measurement through Innovation, Education, and Collaboration

The Post-Graduate Fellowship program is for recent PhD and MD researchers and combines academic research, education and training, and professional work with progressive, on-the-job training and mentoring from an illustrious group of professors and researchers. We are now accepting applications for our 2013 cohort. The program description and instructions on how to apply are attached and linked below. **Our application deadline is November 1, 2012.**

For more information on how to apply, please visit our Web page:

<http://www.healthmetricsandevaluation.org/education-training/post-graduate-fellowship>

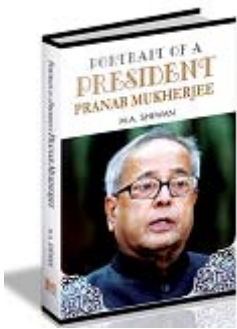

PhD in Global Health

A Measurable Difference

The new PhD program in Global Health builds on the expertise of our faculty in the areas of Metrics and Implementation Science. This unique, interdisciplinary program is comprised of a core curriculum in advanced quantitative methods, epidemiology, population health measurement, impact evaluations, and implementation science methods. Students develop skills through a combination of didactic courses, seminars, and research activities including primary data collection and analysis. This program trains global health researchers for careers in academic institutions, international organizations, ministries of health, foundations, and the private sector. **Our application deadline is December 1, 2012.**

For more information on how to apply, please visit our Web page: <http://globalhealth.washington.edu/phd>

BOOKS

Portrait of a President—Pranab Mukherjee

Mittal Publications®, New Delhi, **M.A. Shewan**

This is the biographical account of a great man, who has achieved all possible heights through his strong will, conviction and sustained efforts. He is Pranab Mukherjee, our new President. Pranab Mukherjee, former no. 2 in the Union Government, headed various Groups of Ministers and Committees. Apart from the political achievements, Mukherjee is well respected among the social circles and is known for his loyal and competent nature. One can see his passion towards the growth of Indian Nation, through his contributions. He has come a long way, from his small native village to Raisina Hills. This is a research-based account of the uphill journey of an honest man to his rise to the top of the political and social strata and reaching the highest status, as the first citizen of India. Mittal Publications®: **4594/9 Daryaganj, New Delhi - 110002 (India), Price: Rs. 995**

Demography: Techniques & Analysis

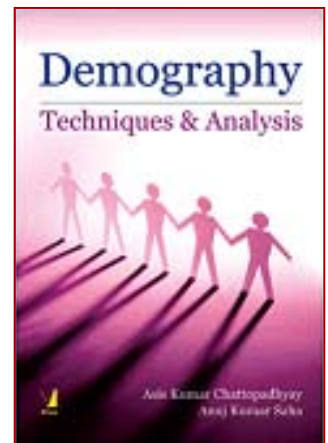

328pp, VIKAS, New Delhi by

Asis Kumar Chattopadhyay & Anuj Kumar Saha

Professor in the Department of Statistics, Calcutta University, was an Associate Scientist "B" at Population Studies Unit, Indian Statistical Institute (ISI)

The book covers most of the recent and advanced techniques for estimating demographic parameters for populations with limited and defective data. Direct and indirect estimation techniques to analyse data and estimates are compared, accompanied by illustrative figures. The book has employed these useful techniques relevant to the various demographic components of population change, namely, fertility, mortality, migration and nuptiality, the most neglected component of population change in demography with illustrations that are mostly uncommon in a book at this time. The indirect techniques that have been used in this book in various analyses are termed as "Disaster Rescue".

BOOKS

Health Services to Women : An Economic Perspective :Utilization and Expenditure by Dr. Usha Iyer : ushaiyer777@gmail.com

LAP Lambert Academic Publishing (2012-04 -11) ISBN-13: 978-3-8484-0740-8

This volume is an earnest attempt to peer into this crucial global issue of women's health with an Indian looking glass. The book has focused on eliciting information on women's health from their own perspective. It elaborates utilization and expenditure on health services in an urban setting.

Specific Study:

DEVELOPING DISTRICT HEALTH ACCOUNTS FROM A BLANK SHEET by **Prof. Vinod B. Annigeri**, Centr for Multidisciplinary Development Research (CMDR), Dharwad Karnataka, vinodann@yahoo.com
Summary

The study tried to develop Health Accounts for a district in the state of Karnataka in the Indian union. Provides broad indicators for policy makers just like the information that emanates from the National Income Accounts. Tracking down of Actors, Activities and Transactions in the health sector would help us to use the scarce resources for better governance of the health sector.

Dr.Prem C. Saxena premsaxena2004@yahoo.com

Fellowship & Job Opportunity

CSFP Endowment Fund – Awards

In 2009, the 50th anniversary year of the CSFP, a new endowment fund was established to support scholarships hosted by low and middle income Commonwealth countries.

BNET Commonwealth Fellowship at the University of Ibadan, Nigeria

One Commonwealth Fellowship is available, thanks to a specific donation from the Britain-Nigeria Educational Trust.

- **Eligibility criteria:** Applicants should be:

- suitably qualified academics with an established record in their chosen discipline from any [ACU member university](#)
- citizens of any Commonwealth country (except Nigeria)
- There is no age restriction for applicants.

- **Tenable at:** University of Ibadan, Nigeria

Eligible subject areas: Any in which the University of Ibadan is engaged – further information on the academic interests of the university is available on the [University of Ibadan website](http://www.ui.edu.ng/) <http://www.ui.edu.ng/>

The selected Fellow will conduct an agreed work programme in conjunction with a named department at the university – applicants should have the endorsement of their proposed host department at the time of their application. **Length:** Up to three months. The Fellowship will be tenable at any time between November 2012 and July 2013.

How to apply: [Application form](http://www.csfp-online.org/documents/CSFP_app_form_Nigeria.doc) http://www.csfp-online.org/documents/CSFP_app_form_Nigeria.doc

Applications should be made by the potential Fellow, but should have the endorsement of an existing department or research centre at the University of Ibadan.

Deadline for applications: 30 September 2012 for further details contact:

MINNESOTA POPULATION CENTER
in Cooperation with
Ministry of Statistics and Programme Implementation
Government of India

Announces the launch of integrated unit record samples for the National Sample Survey,
Schedule 10 (Employment) Rounds 38, 43, 50, 55, and 61 *1983-2005*

And in Co-operation with

69 National Statistical Agencies World-wide

The integration of 212 samples, totaling 480 million person records available now without cost at:

<https://international.ipums.org/international>

IPUMS International “value added”

Easy Access, Free Data

The world’s largest social and demographic database on human populations. All data available under identical conditions of access for every country Unit records are available free of charge to researchers and students world-wide at no-cost .Researchers analyze the data using their own computer resources and software. High precision, anonymized and integrated household samples according to uniform protocols Customized requests are placed electronically and fulfilled in a matter of minutes (large requests take longer)

Comprehensive, Integrated Metadata

Integrated micro data and metadata for more than 500 variables. Identical concepts have the same codes in every sample

Hierarchical coding scheme aids interpretation of complex concepts and nuances in definitions

Complete documentation readily available in English and the official languages of the original sources

Powerful Constructed Variables and Unique Features

Pointer variables associate spouses, children and parents, “Attach characteristics” facilitate complex data analysis , Researcher selects countries, years, sub-populations, variables and sample densities

Funded by the National Science Foundation (SES-0851414) and the National Institutes of Health (R01HD047283) in cooperation with Statistical Agencies, Research Centers and Universities World-wide.

For additional information, please contact **Prof. Robert McCaa**: rmccaa@umn.edu

The Public Health Foundation of India (PHFI) is proud to announce its ‘call for applications’ for the ‘**Post Graduate Diploma in Epidemiology-Distance Learning**’, for academic session of January 2013- December 2013. The course is a distance learning, computer-based online programme **Please Logon** to our website <http://phfi.org> or click on the following link for details.
